OUR HISTORY

WHERE WE WORK

Yes! I want to support **Golden Hills**

Name _____

Address _____

City _____ State _____ Zip _____

Email _____ Phone _____

Enclosed is my check payable to Golden Hills RC&D in the amount of:

☐ \$25 ☐ \$50 ☐ \$250 ☐ \$ _____

The community services we provide are made possible through private donations and grants. Your generous support helps us continue to enhance our rural communities, places and resources through community-led collaboration. **Golden Hills is a non-profit 501(c)3 organization. Your gift may be tax deductible.**

OUTDOOR RECREATION & TOURISM

Golden Hills has worked for decades to expand and improve upon low-impact recreational opportunities in western Iowa such as hiking, bicycling, birding, wildlife viewing, hunting, fishing, and paddling.

LOCAL FOODS

Golden Hills works with the Southwest Iowa Food and Farm Initiative (SWIFFI), a multicounty coalition of individuals and organizations that value and work within the local food system.

COMMUNITY PARTNERSHIPS

Our talented staff can offer a wide variety of services on a contractual, fee-for-service basis, such as grant writing, project management, strategic planning, visioning, meeting facilitation, and much more.

LAND STEWARDSHIP

Our work helps restore and reconstruct prairies in the Loess Hills and beyond, which provides benefits such as wildlife habitat, water quality improvement, erosion reduction, and improved scenery.

WATER RESOURCES

We partner with Hungry Canyons Alliance to implement grade and streambank stabilization projects and coordinate the East and West Nishnabotna Watershed Coalitions to improve water quality and flood resiliency.

ARTS & CULTURE

Golden Hills understands the value that arts and culture bring to southwest Iowa, from both a quality of life and a tourism perspective. We coordinate events and help find funding for a variety of projects.

OUR GOALS

- Develop industries in local communities that utilize local resources.
- Ensure healthy natural resources that meet the needs of agriculture, industry, private use, and recreational facilities.
- Promote and enhance art, culture, and historic resources in rural communities.
- Collaborate with local governments and organizations on projects that benefit the environment.
- Work on projects that fill gaps in community services to benefit people of southwest Iowa.
